## CROWN PRINCE DRIVEN BACK; HIS ARMY BASE IN GERMANY

British Claim to Have Captured Large Number of Prisoners and Guns—Rain Makes Roads Impassable for German Retreat—Rheims Reoccupied by French.

GERMANS HAVE EVACUATED LORRAINE, IS PARIS REPORT

French, However, Claim That Crown Prince Has Been Driven Further Back From Verdun—Kaisers Troops Reforming to Resume Offensive Operations.

### FRENCH REPORT ON ALLIES' CAMPAIGN.

PARIS, Sept. 15 [United Press].—The official bulletin issued from the War Office at Bordeaux at 3 o'clock this afternoon shows that the German retreat has been checked and that they are now putting up a strong rear guard resistance.

The report is as follows: "The Germans on Monday began to resist the French advance on a life that they have established north of the River Aisne and on a line through the forests of la Aigle and Craonne, (midway between Laon and Rheims) and at the centre to the north of Rheims and Chalons."

This is the first admission from the War Office since the German turning movement began that the German forces are returning to the attack.

Continuing, the official statement stated that the Germans are retreating between the Argonne forest and the Meuse River. Last night they held a front through Varrenes and Consenvoye.

The French right, it is stated, has gained a decisive victory, and continues to force the Germans back. In this connection the official statement says:

"On the French right the Germans continue their retreat. Their line now runs from Etain, on the Osne River, 12 miles northeast of Verdun, through to their stronghold of Metz, and then south to Chateau Salins in the Vosges.

"In Alsace the situation continues unchanged." The allies have taken many prisoners. Entire regiments are reported to have been cut off and captured. So swift has been the pursuit of the British-French forces on the left that at some points the pursuing column has been able to reach the cross roads ahead of the Germans and cut them off and compel them to surrender.

That the army of the Crown Prince is being hard pressed in the effort to drive it north and thus relieve Verdun is known here.

The Germans tried to envelop the seven forts that lie between Verdun and Toul. These, however, have all held out with a single exception. It is officially stated that the main columns of the Crown Prince's army are now being forced toward Stenay and Luxembourg.

It is not believed here that another decisive battle is possible for several days. The Germans are short of ammunition and they will have difficulty reforming their exhausted army.

The Germans are collecting their straggling forces from the northwest and preparing for a stand east of Amiens. They are on a semi-circular line that takes in St. Quentin, Guise and Vervins on their right and then swings rapidly southward toward Rethel and the Aisne River lines to the neighborhood of St. Menesould, which was yesterday abandoned by the Crown Prince's army. Everything pointed today to a renewal of serious fighting.

The Germans are making their stand in positions from

### German Crown Prince Reviewing Boy Scouts Before War Began

(Copyright Underwood & Underwood.)  
The German Crown Prince, Frederick William, is an ardent enthusiast of the Boy Scout. These youngsters, whom he is seen reviewing at Gruenewald just before the outbreak of the war, are now taking a very active part in the war.

## KAISER'S BROTHER COMMANDS FLEET TRYING TO DESTROY CZAR'S WARSHIPS IN BALTIC

BERLIN, via Rome, Sept. 15 (United Press).—A naval battle is in progress in the Baltic. This was officially admitted by the German Admiralty this afternoon.

It posted a bulletin stating that fifteen of the twenty-nine units of the Baltic squadron are now in action.

LONDON, Sept. 15 (Associated Press).—In a despatch from Rome dated Monday, Sept. 14, the correspondent of the Exchange Telegraph Company says it has been officially reported there from Berlin that the German Baltic squadron, which is composed of twenty-nine units, has fifteen vessels in action.

(It is believed here that the German Baltic squadron has finally engaged the Russian fleet. For the last week it has been reported that the German Baltic fleet, augmented by battle cruisers from the North Sea fleet, have been cruising in the Baltic near the mouth of the Gulf of Finland, where the Russian fleet was known to have taken refuge.

The last report, received via Stockholm, states that the flag of Admiral Prince Henry of Prussia, brother of the Kaiser, was flying from the flagship of the fleet.]
